

Instant Office | instant image

Kathlene Buchanan, President and Founder of **Metro Offices**, has been in the industry since 1979. She opened our first center in Northern Virginia in 1989, forecasting the need for serviced office space and enhanced the Office Center concept by recognizing the need for well trained, highly motivated customer service professionals.

Since that time, **Metro Offices** has been a leading operator of Office Centers in the Metropolitan Washington, DC area. Our strategically located centers offer a full range of customized officing and telework solutions to entrepreneurs as well as regional, national, and international companies. Buchanan states, "By partnering with our clients, we are able to contribute to the growth and success of their businesses, focusing on their needs with the most current technology in today's business environment."

Metro Offices offers you an instant, comprehensive business environment with flexible terms and minimal up-front costs. Our centers are fully staffed with highly trained, friendly professionals and offer state-of-the-art multimedia technology.
